WARNING
ELECTRIC SUBMERSIBLE PUMPS

Any piece of equipment can be dangerous if not operated properly. YOU are responsible for the safe operation of this equipment. The operator must carefully read and follow any warnings, safety signs and instructions provided with or located on the equipment. Do not remove, defeat, deface or render inoperable any of the safety devices or warnings on this equipment. If any safety devices or warnings have been removed, defeated, defaced or rendered inoperable, DO NOT USE THIS EQUIPMENT!!!

This 120-volt equipment requires a grounded outlet, do not modify plug.

IMPORTANT SAFETY RULES TO FOLLOW

1. Whenever electricity is present there is a possibility of electrocution.

2. Always ground electrical units.

3. Never use gas piping as an electrical ground.

4. Be sure to use proper phase and voltage for pump.

5. Do not run pump if voltage is not within limits.

6. Never attempt to raise pump by electrical cord.

7. Do not let pump run dry. It will cause motor to burn up possibly causing a fire.

8. Never put pump directly on soft, loose bottom.

10. Do not stand in water while pump is in operation.

11. When pump has finished pumping out water, unplug immediately.

12. Wear eye protection.

13. **DO NOT USE PUMPS TO PUMP ANYTHING BUT WATER!!**

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. If there is any doubt as to the operation or safety of the equipment,

**DO NOT USE!! CALL A TOOL SHED IMMEDIATELY!!**

**FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN INJURY OR DEATH**
