WARNING HYDRAULIC FLOW DIVIDER
Any piece of equipment can be dangerous if not operated properly. **YOU** are responsible for the safe operation of this equipment. The operator must carefully read and follow any warnings, safety signs and instructions provided with or located on the equipment. Do not remove, defeat, deface or render inoperable any of the safety devices or warnings on this equipment. **IF** any safety devices or warnings have been removed, defeated, defaced or rendered inoperable, **DO NOT USE THIS EQUIPMENT!!!**

Application
Used for reducing the hydraulic flow and pressure from a tractor's auxiliary hydraulic system to run hydraulic hand held tools.

**IMPORTANT SAFETY RULES TO FOLLOW.**
Safety signal words: The safety signal words **Danger**, **Warning** and **Caution** have the following meanings:
**DANGER:** Indicates a hazardous situation which, if not avoided, could result in death or serious injury.
**WARNING:** Indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.
**CAUTION:** Personal precautions and qualifications only qualified and trained persons may operate or maintain the machine. They must be physically able to handle the bulk, weight, and power of the tool. Always use your common sense and good judgment.

**PERSONAL PROTECTIVE EQUIPMENT**
Always use approved protective equipment. Operators and all other persons in the working area must wear protective equipment, including at a minimum: **Protective helmet, Hearing protection, Impact resistant eye protection with side protection, Respiratory protection when appropriate, Protective gloves, Proper protective boots, Appropriate work overall or similar clothing (not loose-fitting) that covers your arms and legs.**

**WARNING** Drugs, alcohol or medication Drugs, alcohol or medication may impair your judgment and powers of concentration. Poor reactions and incorrect assessments can lead to severe accidents or death.
► Never use the machine when you are tired or under the influence of drugs, alcohol or medication.
► No person who is under the influence of drugs, alcohol or medication may operate the machine.
**WARNING** Hydraulic oil at high pressure Thin jets of hydraulic oil under high pressure can penetrate the skin and cause permanent injury. Immediately consult a doctor if hydraulic oil has penetrated the skin. Never use your fingers to check for hydraulic fluid leaks. Keep your face away from any possible leaks.
**WARNING** Hydraulic oil Spilled hydraulic oil can cause burns, accidents due to slippery conditions and will also harm the environment. Take care of all spilled oil and handle it according to your safety and environmental regulations. Never dismount the hydraulic machine when the hydraulic oil is hot.
**CAUTION** Skin eczema Hydraulic oil can cause eczema if it comes in contact with the skin. Avoid getting hydraulic oil on your hands. Always use protective gloves when working with hydraulic oil. Wash hands after contact with hydraulic oil.
**CAUTION** Moving parts Risk for crushed hands and fingers. Never check bores or passages with hands or fingers. Never operate the machine when adjusting the choke control or fuel valve.
**WARNING** Whipping hydraulic hose Hydraulic hoses under pressure can whip uncontrollably if screws loosen or are loosened. A whipping hydraulic hose can cause severe injuries. Depressurize the hydraulic system before loosening the connection of a hydraulic hose. Tighten the nuts on the connections of the hydraulic hoses to the required torque. Check that the hydraulic hose and the connections are not damaged.

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. **IF** there is any doubt as to the operation or safety of the equipment, **DO NOT USE!!! CALL A TOOL SHED IMMEDIATELY!!!** **FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN INJURY OR DEATH**
