

WARNING
ELECTRIC IMPACT WRENCH

Any piece of equipment can be dangerous if not operated properly. **YOU** are responsible for the safe operation of this equipment. The operator must carefully read and follow any warnings, safety signs and instructions provided with or located on the equipment. Do not remove, defeat, deface or render inoperable any of the safety devices or warnings on this equipment. If any safety devices or warnings have been removed, defeated, defaced or rendered inoperable, **DO NOT USE THIS EQUIPMENT!!!**

WARNING! This product contains or produces one or more chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

Do not tape down or otherwise by-pass any safety devices! Always operate this equipment from the designated operators position.

Never operate power equipment of any kind if you are tired or if you are under the influence of alcohol, drugs, medication or any substance that could affect your ability or judgment. Be alert! If you get tired while operating this equipment, take a break. Tiredness may result in loss of control.

This 120-volt equipment may require a grounded outlet, do not modify plug.

Always wear eye, dust and hearing protection.

Don't Abuse Cord - Never carry tool by cord, or yank it to disconnect from receptacle.

IMPORTANT SAFETY RULES TO FOLLOW

1. Do not use power tools in damp or wet locations. Do not expose power tools to rain. Failure to follow these instructions increases the risk of electrocution.
2. Avoid gaseous areas. Do not operate electric tools in explosive atmospheres in presence of flammable liquids or gases. Motors create sparks, which could ignite fumes.
3. Do not wear loose clothing or jewelry. Wear safety glasses, ear protection, and dust mask if needed.
4. Always inspect tool for frayed or damaged cords. Do not use if tool is not in proper working order.
5. Avoid accidental starting. Don't carry plugged in tool with finger on switch. Be sure the switch is in the "OFF" position before plugging into outlet.
6. Never connect a tool to any source that does not match the voltage of the tool.
7. Do not force the tool. Only use for the purpose it was intended.
8. Always unplug tool when adding or disconnecting accessory.
9. Impact Socket must be used - usage of hand socket sets will result in breakage of the socket and possible injury to the operator. Sockets must be secured to wrench.

USEFUL HINTS:

Do not allow the impact wrench to hammer on a stuck nut over 10 seconds because the wrench will break if you do so..

You need a larger wrench if the nut will not move in 10 seconds.

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. If there is any doubt as to the operation or safety of the equipment

DO NOT USE!!! CALL A TOOL SHED IMMEDIATELY!!! FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN INJURY OR DEATH
